

Project Development Phase

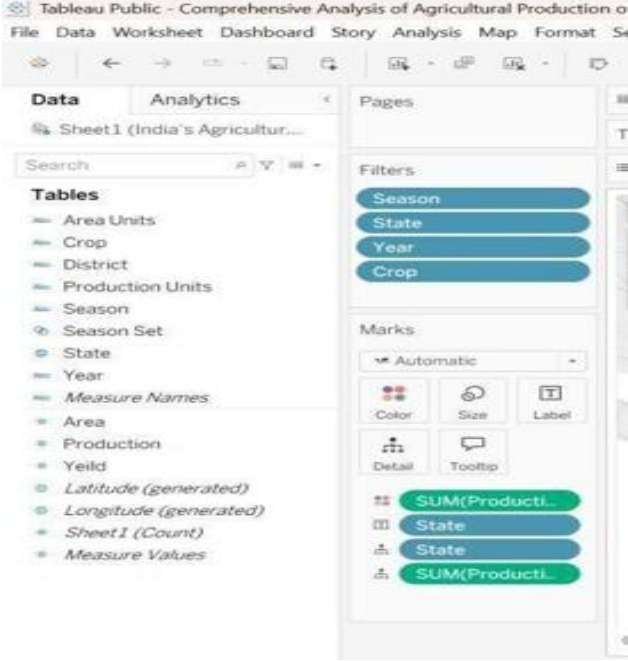

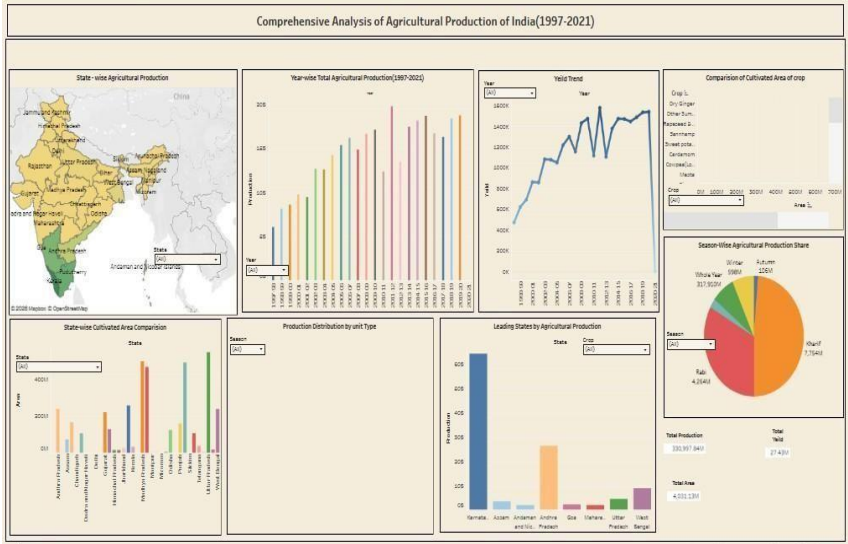

Performance Test

Date	05 July 2026
Team ID	
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No	Parameter	Screenshot / Values
1.	Data Rendered	 India's Agricultural Crop Production Analysis Successfully rendered 345,408 records from the India Agricultural Crop Production dataset without performance degradation.
2.	Data Preprocessing	 Null values cleaned, aliases created, and geographic data types successfully assigned for State and District.

3.	Utilization of Filters	 Implemented 6 dynamic filters (State, District, Crop, Season, Crop Year) with cross-filtering applied globally across all dashboard sheets.
4.	Calculation fields Used	 Calculated fields for "Total Yield" (Sum of Production / Sum of Area) and dynamic tooltips created successfully.
5.	Dashboard design	 No of Visualizations / Graphs - 6 interactive charts Comprehensive Analysis of Agricultural Production of India(1997-2021)story (2) Tableau Public

6.	Story Design	No of Visualizations / Graphs - 6 sequential story points Comprehensive Analysis of Agricultural Production of India(1997-2021) Tableau Public
